

NIVETHA DHANAKOTI

 Nivetha Dhanakoti |  Nivetha Dhanakoti |  nivikoti@gmail.com |  +91 7598112004

EDUCATION

2022 - 2026	SSN College of Engineering affiliated with Anna University Bachelor of Engineering - Computer Science and Engineering	CGPA: 8.9/10
2022	Cluny Matriculation Higher Secondary School - Class 12th (HSC)	97.6 %
2020	Cluny Matriculation Higher Secondary School - Class 10th (SSLC)	97.8 %

TECHNICAL SKILLS

Programming Languages	Python, C, C++, Java
Web Development	HTML, CSS, JavaScript, Dart, VS Code, Angular, React JS
Database	MySQL, Oracle, MS-SQL
Graphic Design	Canva, Adobe Photoshop, Flutter, Glide, Android Studio

PUBLICATIONS

- Nivetha Dhanakoti, Dr. V. Dhanakoti “**A Methodical Examination in the Pursuit of Big Data Analytics in Digital Media Broadcasting**” in International Journal of New Innovations in Engineering and Technology (IJNIET) Volume 24 Issue 4 - July 2024, ISSN 2319-6319.
- Nivetha Dhanakoti, Dr. V. Dhanakoti “**Contrasting a Conventional Approach with Digital Approach for Brand Communication Scrutiny**” in Journal of Xidian University Volume 18 Issue 7 - July 2024, ISSN 1001-2400.
- Nivetha Dhanakoti, Dr. V. Dhanakoti “**An Approachable Look at the Search for Big Data Analytics in Digital Media Distribution**” in IEEE (Yet to be published)
- Nivetha Dhanakoti, Dr. V. Dhanakoti “**An Overview on Big Educational Data and Analytics, Framework and Constraints**” in VDI-Z Integrierte Produktion Journal - Sep 24, 2025, ISSN 0042-1766
- Nivetha Dhanakoti, Dr. V. Dhanakoti “**An Extensive Analysis of the Procedures in Data Science**” in Journal of Computer Science Volume 18 Issue 11 - Nov 2025, ISSN 1549-3636

CONFERENCE

- Presented the paper “**A Synopsis of the Framework, limitations of Big Educational Data and Analytics**” in the 12th International Conference on Contemporary Engineering and Technology held on 23, 24 March 2024 organized by Organization of Science and Innovative Engineering and Technology (OSIET).
- Presented the paper “**Examining and Comparing a Digital and Conventional Approach to Brand Communication**” in the International Conference On Computational Mathematics In the Era Of Data Science and Artificial Intelligence held on 21, 22 February 2025 at Dayananda Sagar College of Engineering.
- Presented the paper “**An Approachable Look at the Search for Big Data Analytics in Digital Media Distribution**” in the 16th International Journal IEEE Conference on Computing, Communication and Networking Technologies (ICCCNT) held during 6th to 11th July 2025 at IIT Indore.

WORK EXPERINCE

Summer Intern at Agaram Infotech	May 2025 – July 2025
- Involved in the Complaint Management System, catering to client-specific business, and worked with senior developers - Participated in code reviews and testing to ensure the standard and bug-free	
Software Developer Intern at Agaram Infotech	Aug 2024 – Jan 2025
- Designed and implemented responsive web applications using Angular, integrating with backend services built on .NET Core - Collaborated with team to optimize performance and ensure seamless data flow between frontend and backend systems	

CERTIFICATIONS

- Data Analytics with Python – NPTEL	May 2025
- Google Business Intelligence Certificate (3 Courses) - Coursera	Jan 2025
- DevOps on AWS Specialization certified by Amazon Web Services (4 Courses) – Coursera	Aug 2024
- Google Project Management: Professional Certificate (6 Courses) – Coursera	Mar 2024
- Google Data Analytics Professional Certificate (8 Courses) – Coursera	Nov 2023

WORKSHOPS

- Attended 9th Workshop on Text Analysis and Information Extraction & Retrieval (TIER-2025) at SSN College of Engineering, Feb'25

PROJECTS

- **Content Generation of Legal Multi-Documents via Argumentative Abstraction(Team size:2) Jul 2025 - Present**
Summary: This project proposes a Multi-document Summarization system tailored to Legal domain, capable of taking a set of related legal documents and generate a timeline-ordered summary using an argument oriented graph framework. Performs Legal Trend Discovery to track legal texts to reveal evolving socio-political and legal themes across time.
- **Sentimental Analysis for McDonald’s Reviews (Team size: 2) Feb 2025 - Mar 2025**
Summary: This Flask web application analyzes McDonald’s restaurant reviews and predicts sentiment as negative, neutral, or positive. The results of the study emphasize the capability of sentiment analysis in boosting brand reputation management by allowing businesses to make data-driven decisions and enhance customer experience.
Individual Contribution: Directed data processing pipeline through data cleaning, feature engineering, and preprocessing, executed and evaluated various machine learning algorithms for accuracy and reliability, and evaluated the front-end integration and total responsiveness of the final web app developed with Flask.
- **Low Light Enhancement and Object Detection (Team size: 3) Sep 2024 - Dec 2024**
Summary: This application is used to enhance the low-light images using techniques Histogram Equalization, CLAHE, Bilateral filtering, Gamma correction and Unsharp masking and perform Object detection of various objects using Semantic Segmentation.
Individual Contribution: Spearheaded the performance benchmarking of these methods on a variety of data sets to determine the best combinations of techniques for different lighting conditions. Integrated the preprocessing module with the object detection module to allow a smooth transition and handoff to the semantic segmentation model for identifying the objects.
- **Super Mario - The Adventure Quest (Team size: 2) Sep 2024 - Dec 2024**
Summary: This project is a clone of the classic Mario game, incorporating AI to enhance gameplay. ML algorithms are used to create adaptive enemy behavior, enhance levels design, navigate through obstacles, collect coins, avoid enemies and hazards.
Individual Contribution: Focussed on creating an engaging user experience and intuitive level layouts. Contributed to the development of the dynamic environment, ensuring smooth interactions between characters, and adaptive gameplay elements.
- **Nihas Flower Works (Team size: 1) Jun 2024 - Oct 2024**
Summary: A fully functional E-Commerce website, developed entirely using frontend technologies. This website enables to place order for a bouquet shop which will be received by the company itself and delivered.
- **Sentimental Analysis of Tweets (Team size: 1) Mar 2023 - Jun 2023**
Summary: This project uses the digital methodology, ML algorithms to analyse large amounts of scientific data. This aims to identify and classify the emotions represented in a sample by separating them into favourable, adverse and neutral attitudes

ROLES AND RESPONSIBILITES

- Technical Head of ACM-W Student Chapter at SSN College of Engineering Aug 2025 – Present
Lead the technical initiatives of the ACM-W and organize coding workshops, hackathons and mentorship sessions.
- Event Organizer of ACM Student Chapter at SSN College of Engineering Jul 2025 – Present
Plan and coordinate events, coding contests, and speaker sessions to foster a collaborative learning environment.
- Student Representative of Internal Quality Assessment Cell (IQAC) at SSN College Feb 2025 – Present
Represent student at organizational level to contribute feedback and assist in academic enhancements.
- Student Alumni Representative at SSN College of Engineering Sept 2024 – Present
Act as a bridge between students and alumni and held coordinate meets and mentorship programs.
- School Pupil Leader at Cluny Matriculation Higher Secondary School 2020 - 2022
Elected as the student representative of the school and organize events.

EXTRA CURRICULAR

- Participated in Model United Nations and engaged in simulated global diplomacy Aug 2019
- District Level Table Tennis Player, Sept 2019
- Acquired eight grades in Piano and five grades in Guitar under Trinity School of Music Jun 2018
- Finsished eight grades in Theory under Trinity School of Music May 2018
- Completed eight examinations of Hindi under Dakshina Bharat Hindi Prachar Sabha Feb 2016
- Reached the second level in the International Math Olympiad (IMO) Jul 2015
- Completed 4 levels in Vedic Maths under Xtragenius Mar 2015
